

Our young and innovative company is looking for a

## Senior QA Engineer (m/f)

to start immediately or by agreement.

### Key responsibilities:

In this role you are responsible for the technical part of QA for our **coresuite** cloud line of products. You will be in charge of defining the processes and general QA framework together with the QA Manager, as well as implementing them and carrying out end-to-end testing for our upcoming product releases. You will also be involved in research involving automated testing and how it can be used to improve the quality of our products. You will be working in Cluj-Napoca, Romania.

### The company:

**coresystems** is a young and innovative IT company with an international network of partners. **coresystems** is among the world's leading developers of SAP Business One applications. It also plays a pioneering role in cloud computing and in developing mobile applications. The company, currently counting over 80 employees, continually develops new products that help small and medium-sized companies add value to their day-to-day business.

Our innovative **coresuite** apps extend the functionality of SAP Business One and other ERPs and provide additional value to our partners and their customers. The apps, designed for mobile devices such as the iPhone, can be integrated at low-cost, with zero consulting and no programming knowledge. They are easy to use and cover many areas, e.g. reporting, e-commerce, dashboards, time recording, service solutions and integration of social networks.

### Skills required:

- 3+ years' experience in testing and quality assurance
- Ability to plan, design and execute test cases
- Experience with test automation tools and scripted testing
- Basic knowledge of OO programming and SQL
- Highly independent but also able to work as part of a team
- Good English (written and spoken), German is a plus

As the ideal candidate, you are a team player, 20-35 years old and you are used to working independently. You perform well under pressure, are service-oriented and always put the customer first.

We offer an interesting and challenging job in a rewarding work environment. Attractive employment conditions are also on offer for the successful applicant.

If you are interested, please send your application, along with your salary expectations, to [coresystems ag | Human Resources | Frau Chantal Grenacher | Villa im Park | Dorfstrasse 69 | 5210 Windisch | Switzerland](#) or to [hr@coresystems.ch](mailto:hr@coresystems.ch). If you have any questions, please feel free to call us on +41 (0) 56 500 22 02.
