

Coresuite Country Package

Efficient SAP Business One projects out of the box: Reporting, Accounting, Customizing and Search.

Enterprise Search

Find documents and business partners in the blink of an eye with the smart Enterprise Search running across all fields in SAP Business One.

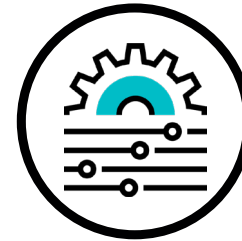

Coresuite Designer

Coresuite Designer comes with a full range of document templates. Benefit from increased efficiency: One layout for all marketing documents that allows quick and easy modification.

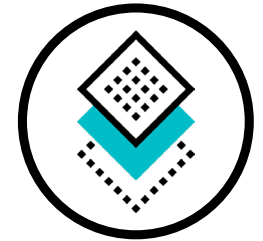

Coresuite Accounting

Keep track of bank statements, charts of accounts, budget reports or balances at any time? Reports, lists as well as widgets and dashboards give you a quick overview of your entire accounting.

Coresuite Customize

Coresuite Customize is ideal for modifying a new or existing SAP Business One environment. A simple and efficient tool to realize your customers needs and desires.

Coresuite Framework

Coresuite Framework is the base for all modules in the Coresuite Country Package and is compatible with all SAP Business One versions you have in use.

SAP BUSINESS ONE

Coresystems AG, Altstetterstrasse 124, 8048 Zurich, Switzerland, T. +41 56 500 22 22

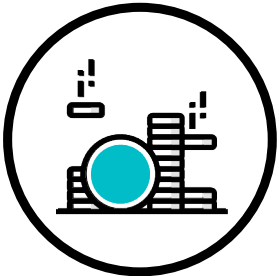

Coresuite Extensions

The Coresuite Country Package builds the base for the extensions.

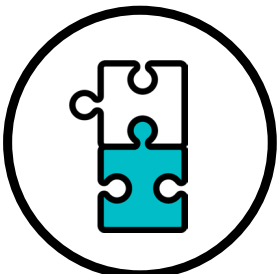

Coresuite Service

Run your rules without the need of having SAP Business One started. Therefore you can control automated processes completely offline.

Booking Wizard

Create your own booking rules - The Booking Wizard gives the possibility to automatically post accruals and deferrals and to automate the distribution of costs to cost centers.

Your Add-On

Develop your own add-ons based on our proven Coresuite Framework and regardless of your SAP Business One version.
