core

Coresuite Cube

Coresuite Cube is a reporting tool and comes with a lot of out-of-the-box reports for finance, sales and inventory.

Analyse your data easily, create reports without programming knowledge and show them in Excel, Browser, E-Mail or Mobile:
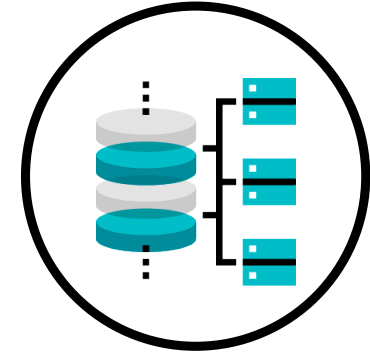

Finance Cube*

Financial consolidation (multi cube)
Cost center accounting, Cost margin
reporting**, Cash flow statement

*Coresuite Country Package is required
**The use of Booking Wizard is recommended

Sales & Purchase Cube

Quotation analasis, Sales order entry
Revenue analysis incl. budget comparison,
Shopping basket analysis

Inventory Cube

Inventory analysis, Forecasting reports and
Stock value analysis

The data is retrieved manually or by using a rule that periodically updates the data
and e.g. send them by email to the addresses provided.
