core

ChronoHub

ChronoHub simplifies time tracking and attendance management by eliminating manual timesheets and approval processes.

Time Tracking

Enabling employees to easily record and monitor work hours, breaks, and absences while offering instant transparency into the data.

Effort Management

Facilitating employees to effortlessly document and monitor their activities, while providing valuable insights into resource allocation.

Recording Report

Easily keeping track of time recordings and efforts. This leads to an easier accounting for the hours actually incurred.

Approval Process

Providing a simplified and efficient process for submitting, evaluating, and authorizing time off requests timely and standardized.

ChronoHub's powerful APIs seamlessly integrate with a variety of tools and platforms, providing a hassle-free way to streamline your workforce management processes and supercharge your efficiency.
